SUPER POTENTIAL POWER UNIT:

heavy duty chain drive system with steel gears ensures reliability and resistance.

INTEGRATED AUTOMATIC OILER STANDARD

The Automatic Oiler eliminates the need to manually lubricate the unit. Not only does this protect the blades with anti-corrosive agents, but ensures maximum reliability, efficiency and capacity. Cross-cut shredders benefit most from this practical option.

OPTIONAL: METAL DETECTION SYSTEM

The Shred Guard System stops the machine when large metal objects are accidentally inserted. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives.
